

ADOPTED BUDGET RECOMMENDATION

Instruct the Bureau of Sanitation to report to the Energy, Climate Change, and Environmental Justice Committee on ways the City's current climate change efforts will protect marginalized communities, including frontline communities living near oil wells and oil refineries, Aliso Canyon, the Exide Battery Plant, and freight-adjacent freeways, from further damage and exploitation. The report should include a labor perspective, specifically, what the City is doing to ensure that workers are not displaced as the City moves into a clean energy economy.

(Pursuant to adoption of the Mayor's 2018-19 Budget on May 21, 2018)
