

MOTION

The Arroyo Seco Bike Path runs approximately two miles between South Pasadena and northeast Los Angeles, offering views of the Los Angeles skyline and the distant mountains. On October 18, 2018, South Pasadena opened the Arroyo Seco Bicycle & Pedestrian Trail, which connects to two of Pasadena's bicycle paths and is a short distance from access to the Arroyo Seco Bike Path in the City of Los Angeles. In order to connect the entire bike path, a small connecting segment must be constructed. The Department of Transportation has initiated preliminary planning efforts for the bike path linkage project.

I THEREFORE MOVE that the City Council instruct:

1. The Department of Transportation to develop a plan for the construction of a bike path segment that would link the Arroyo Channel bike path in the City of Los Angeles to the Arroyo Seco Bicycle and Pedestrian Trail; and
2. The Bureau of Engineering to acquire the necessary property rights to complete the above bike path segment project.
