

ADOPTED BUDGET RECOMMENDATION

Request the Los Angeles Homeless Services Authority to report to the Homelessness and Poverty Committee on metrics related to various categories of homeless populations, such as unaccompanied youth, women, families, and individuals with disabilities, mental health, or substance abuse issues, and discuss how these populations have changed over time. The report should describe any progress made in reducing homelessness among these populations or whether it has worsened. The report should also discuss, by population group, which programs have been most or least effective in addressing their needs. The report should include the number of individuals who receive housing interventions and specify whether they are placed in market rate housing, Rapid Re-Housing, and/or Section 8, and specify the length of their stay in these housing programs.
