Summary:

On November 13, 2019, your Committee considered an October 1, 2019 Board report relative to the monetary donation of \$18,000 from the LAPF for website hosting services for the benefit of the LAPD Online Unit. According to the Board, the donation will allow the LAPD to continue its contract with SPINX Digital, which positively impacts the community, ensuring the information provided on the site is up-to-date and accessible. SPINX Digital assists in a range of issues that may occur while running vast websites and software. Types of activities that the technical support will consist of, but are not limited to, troubleshooting E-policing, server assistance and interfacing with Amazon Cloud Hosting for internal and external restarts. The Information Technology Division is aware of the use of SPINX Digital and does not provide support, due to SPINX Digital providing the support needed for its own program. After consideration and having provided an opportunity for public comment, the Committee moved to recommend approval of accepting the donation. This matter is now submitted to Council for its consideration.

Respectfully Submitted,

PUBLIC SAFETY COMMITTEE
