Summary: The Palms Neighborhood Council supports Council File 19-1586, which proposes studying how to electrify 80% of rentals at the new LAX rental car facility (Consolidated Rent-A-Car facility, or CONRAC), and where to add EV-charging stations throughout the city to meet visitors' needs. We believe that this study would help assess the options to plan ahead for a technology that is growing in adoption and popularity. Planning ahead for rental EVs at LAX can save money and help reduce smog, among other environmental benefits that we feel are important to combating the climate crisis.
