

## MOTION

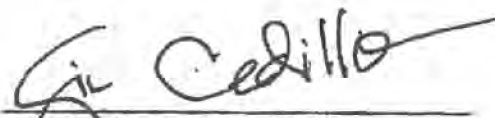

Loyola High School in Council District 1 at 1901 Venice Boulevard has been implementing improvements to its property and wishes to install water pipes for domestic and fire water service to one of its buildings. However, the section of the street where the Department of Water and Power (DWP) needs to cut into to conduct the installations has been resurfaced and the property owner did not have an opportunity to coordinate with the planned street work.

The property owner has indicated that they have no record of having received a 30-day notice of the planned resurfacing work on Venice Boulevard, which was completed on November 16, 2019. An exception to the City's one-year street cut moratorium is needed to allow DWP to cut into the street to install water service for the new development at Loyola High School.

I THEREFORE MOVE that the City Council approve an exception to the City's one-year, street cut moratorium on Venice Boulevard to allow for the installation of water service for Loyola High School at 1901 Venice Boulevard.

I FURTHER MOVE that the permittee be required to properly repair and resurface the street cut area in accordance with Bureau of Engineering requirements and standards and, upon completion of the work, the repaired street cut be inspected by the Bureau of Contract Administration to maximize the longevity of the street.
