**Council File No:** 20-0668

**Comments for Public Posting:** REGARDING, Redistricting Council District 3 to Separate North Side of Aetna Street, Exhibit Court, and Pierce College, I am OPPOSED to removing Pierce College from Council District 3. This appears to be a political real estate grab and serves no purpose, other than to reduce the effectiveness of interactions between the College and all neighbors directly adjacent to the south of the campus. As a reminder, Pierce College does not have any residents on their site and the college is used by Taft High School (in CD3) as the location for their water polo and all cross country track activities. The Orange Line is a better dividing line as it will keep my community intact. I live on Aetna Street in Woodland Hills and the suggestion of splitting the north side of Aetna Street and Exhibit Place from the south side of these small streets, to be moved out of CD3 and linked separately with the Pierce College redistricting move, will disrupt our neighborhood in how we interact with our city representative. we need to keep Pierce College and the entire Carlton Terrace neighborhood intact. It is imperative that our entire area in Woodland Hills needs to be served within the same City District. It is unacceptable to suggest this reallocation and split of Council District for my community. This MUST be removed from your consideration. Sincerely,  
MICHELLE HSIAO

**Comments for Public Posting:** I strongly object to the redistricting of our Woodland Hills area. You are attempting to cut and divide an entire community for no discernable reason. I'm guessing it has to do with political power and its distribution. We have long lived next door to Pierce College and am concerned with its preservation environmentally. Our backyard fence literally rubs against the Pierce property. It is wrong to suddenly cut Pierce from the same legislative boundaries. If you follow through with this reckless pursuit, I believe that this neighborhood may be forced into legal action against you and your bad decision -- a decision which would harm our community irreparably. ----Jill Workman-Isenberg
