Re: CIS in support of CF-20-0707.

The Sylmar Neighborhood Council (SNC), which represents over 90,000 Los Angeles stakeholders who reside, own property, or conduct business in our neighborhood, want to express support for Council File 20-0707, an Economic Recovery and Job Training Pilot Program through Sidewalks Repair and Installation. The SNC acknowledges the challenges and impact of COVID-19 on the well-being of our community. These uncertain times require that our City leaders be firm in their resolve to uplift individuals through innovative solutions and creative programs.

As stated in the motion the job losses are unprecedented. These losses have been felt disproportionately by low-income and moderate-income individuals and families. We believe this motion is a step forward to assisting our community, one of the neighborhoods hardest hit by this pandemic. We believe that this pilot will not only assist individuals who are underemployed and unemployed, but it will also accomplish beautification of our community through much needed and desired infrastructure improvements. We understand that the City is facing a significant budget shortfall, however we strongly believe investments aiming to accomplish more than one goal will yield more results during these challenge times.

We ask that you continue to seek solutions and explore ideas that help those most in need. Additionally, we ask that you also support our local businesses that help make our community vibrant. We ask that you continue to invest in our community's economic recovery and development. We are eager to partner with you to engage the community and move Sylmar towards economic prosperity.

The Sylmar Neighborhood Council therefore strongly supports CF 20-0707 and its delineated objectives.
