Summary: In addition to the severe illness and monumental numbers of deaths mainly due to COVID-19 and declining economic activity and business closures, there has been a staggering rise in unemployment in Los Angeles County and City, with a devastating impact on those who can afford it least: low-income families and communities of color. However, the health care and social service industries are both projected to add close to 100,000 jobs by 2022, which can provide a base for economic recovery beyond the pandemic. To help meet this need, the Economic and Workforce Development Department (EWDD), collaborating with several non-profits, launched the Community Care Corps. This Corps trains and hires residents with the highest barriers to employment as community health workers and trace finders to fill gaps in the health care system and provide meaningful employment during these unprecedented times. The Corps has already successfully trained and hired nearly 700 for careers as community health workers. If the CARES Act funding is extended, this program can be continued to train and hire more community health workers. This motion seeks to instruct the EWDD to extend the Community Care Corps Program to 12/31/2021 to utilize any remaining funds for that program and to instruct and authorize EWDD to prepare, process and execute any documents necessary for that purpose.
