Summary:

On June 24, 2020, your Committee considered a Motion (Harris-Dawson - Bonin - Rodriguez - Ryu) relative to an analysis of the crowd control tactics used by the LAPD. According to the

Motion, a number of disturbing videos showing LAPD personnel using force during the recent protests in response to the killing of George Floyd in Minneapolis have been circulating online and in the media. This includes a video showing LAPD officers beating protesters with batons before shooting into a crowd with rubber bullets in the Fairfax District; an LAPD officer shooting an unhoused individual in a wheelchair who was not even part of the protests with a rubber bullet, striking him in the head and seriously injuring him; and, another showing an LAPD cruiser striking a protester and then fleeing the scene in Pershing Square.

A full investigation into these allegations and the acts shown in these videos must be conducted. In addition to the videos and reports of significant use of force by LAPD officers against protesters, a number of individuals and organizations state that the imposition of city wide curfews led to the arrest of thousands of protesters whose only crime was exercising their First Amendment rights after the LAPD decided that everyone needed to clear the streets. A number of arrestees have complained that LAPD used significant force to enforce the curfew, and that arrestees were held in close contact with other protesters in confined spaces, which, during the ongoing COVID-19 pandemic, could have put their health in danger. Others have contended LAPD used force on peaceful protesters both before and after curfew or orders to disperse were given, and while demonstrators were complying or dispersing.

On June 2, 2020 a Motion (Rodriguez - Harris-Dawson), Council File No. 20-0686, was introduced directing the Chief of Police to present an after-action report to Council analyzing the Department's actions leading up to and during the recent civil unrest. This after-action report should also include an analysis of the crowd control tactics used by LAPD, including the deployment of police in full riot gear to block the movement of protesters, decisions to declare unlawful assemblies and curfews, information on how those declarations were conveyed to protesters as well as information on LAPD's compliance with existing departmental policies and legal mandates on use of force. Further, the LAPD should request Mr. Gerald Chaleff the former Police Commissioner and retired LAPD Special Assistant for Constitutional Policing, who prepared the detailed report on LAPD's actions during the May Day 2007 incident in MacArthur Park, prepare this After Action Report. After consideration and having provided an opportunity for public comment, the Committee moved to recommend approval of the Motion as amended and detailed in the above recommendations. This matter is now submitted to Council for its consideration.

Respectfully Submitted,
