**Comments for Public Posting:** The proposed ordinance is monstrous and all those who would even consider enacting it should first of all be deeply ashamed of themselves, but more importantly should be removed from their position on the city council by the popular will of the voters of Los Angeles. With any luck, that will happen eventually, but in the meantime this cruel and disgusting motion which seeks, essentially, to criminalize existing outside and so in effect to codify the further brutalization and harassment of unhoused people in Los Angeles must be stopped. 20-1376 is inhumane AND fiscally irresponsible. Criminalization & sweeps cost the city hundreds of millions without reducing homelessness or helping the people who live here. It's reckless violence when we need are real solutions and services, not policing & imprisonment.
