

MOTION

The property at 8514-8526 S. Hoover Street in Council District 8 is being developed as a future gas station. The Department of Water and Power (DWP) has informed the owner that it will need to cut into the street in order to install fire and domestic water service to the property. However, this section of S. Hoover Street was resurfaced by the Bureau of Street Services on May 21, 2020 commencing the City's one-year moratorium on street cuts for this road segment.

The owner has stated that they only received a posted on-site notice on May 12, 2020, one week before the planned resurfacing. The owner does not have a record of having received a 30-day notice of the planned street work. An exception to the City's one-year street cut moratorium is therefore necessary to allow for DWP to cut into the street to install water service for this property.

I THEREFORE MOVE that the City Council approve an exception to the City's one-year, street cut moratorium on S. Hoover Street to allow for the installation of fire and domestic water service at 8514-8526 S. Hoover Street.

I FURTHER MOVE that the permittee be required to properly repair and resurface the street cut area in accordance with Bureau of Engineering requirements and standards and, upon completion of the work, the repaired street cut be inspected by the Bureau of Contract Administration to maximize the longevity of the street.
