Comments for Public Posting: Western heritage and life styles must be preserved! People in the ranching, farming, rodeoing, racing, 4-H, FFA, trail riders, horse trainers and on and on- need to be able to care for and work livestock and be keepers of the land! People trying to restrict this are ignorant of these people and livelihoods and the care they provide to animals and the environment!

Comments for Public Posting: Como residente de Los Ángeles, estoy a favor de la prohibición de los dispositivos dolorosos de los rodeos y las charreadas. Animales como toros, becerros y caballos son seres inteligentes y sensibles que sufren tremendamente cuando les aplican descargas eléctricas y son sometidos a la tortura de las espuelas, cinchas y correas de amarre de alambre. Los dispositivos dolorosos usados en rodeos y charreadas (como picanas eléctricas, espuelas y cinchas para corcoveo) son usados para irritar y enfurecer a los animales. La faja, cincha o cuerda de “corcoveo” se encincha fuertemente alrededor del abdomen del animal, lo que provoca que corcovee con vigor para tratar de librarse del tormento. Cuando se combinan las cinchas de corcoveo con las espuelas, los animales corcovean aún más violentamente, lo que a menudo provoca lesiones graves. Exoficiales de control de animales han hallado cortezas espinosas y otras sustancias irritantes colocadas bajo las cinchas de corcoveo. Además, la cincha de corcoveo puede causar heridas abiertas y quemaduras cuando frota el pelo y rasga la piel. Thank you Mrs S Rocha
