Comments for Public Posting: Rodeo, Bull-Riding, Rodeo Sports, and Equestrian events are entrenched in Southern California and California state history. Los Angeles County is more than a big city full of nightlife and high rises, it spans to communities who rely on rodeo, the AG industry, and working with these emails for their lively hood. There is also a right to participate in this sport that is not only a national treasure but a global phenomenon. Passing this bill would without a doubt damage the Agricultural industry, the communities who work with horses, cattle, and other livestock, and set a negative and dangerous precedent for other counties in the state. California is crucial in the history of the American West, and these sports are a tribute, continuation, and now revival of the depth California has. There are surfers, billionaires, celebrities, tech geniuses, and there are bull riders, ropers, cattlemen, farmers, and ranchers. Southern California can be a positive representative of the Western industry and its meld with the modern, urban world. It is paramount that this ordinance is put to rest for GOOD, and that Rodeo and Rodeo sports are not only safe to operate in LA county, but welcomed and respected as a part of its diverse history, and exciting future.

Comments for Public Posting: I do not understand why one would want to stop or cancel one of America's number one sports Rodeo is a sport that has been around much longer than most of your modern sports it's a sport where you do not get paid unless you win these cowboys and cowgirls are most generally good people they keep better care of their animals Than most people take care of their house pets but yet we are continuously fighting to keep our sport alive

Comments for Public Posting: There are already laws in place regarding rodeo equipment and usage in California. The Professional Rodeo Cowboys Association also has over 70 rules pertaining to the safety of the livestock and contestants. These laws and rules already address spurs, flank straps and electric prod usage. Penal code 596.7 already restricts the use of electric prods, flank straps are fleece lined or soft rope, and sharp spurs are prohibited and locked spurs are prohibited in saddle bronc and bareback events. We take great pride in our rodeo livestock. Our animals are often worth thousands of dollars and are bred for their job as a rodeo athlete. Items such as flank straps are not used to hurt an animal but for the safety of the animal and the rider. Flank straps are lined with fleece and never placed too tightly as the animal will not buck if that is the case. Spurs are not sharp as often indicated and electric prods can only be used in case of an emergency when the chute gate is open and the life of the animal and/or rider is threatened. No one involved in Rodeo or the western industry was consulted by the Los Angeles City Council before they pushed the drafting of the ordinance forward. At least take the opportunity to educate yourselves about the equipment and usage before passing an ordinance. There are a number of businesses that count on the Professional Bull Riding and rodeo related activities at venues like the Staples Center that draw capacity crowds for their business. Those restaurants and businesses that gain income from the economic impact of these events will see their bottom line negatively impacted. Please do the right thing, and continue to allow and support Rodeos in LA and California. Thank you for your consideration. Norman P Braly

Comments for Public Posting: To get rid of the rodeo is so strange! Western lifestyle is what the US is based off. Don't take away the roots of America! Plus, this is a lifestyle for many people.

Comments for Public Posting: Please do not pass this ordinance. Livestock and horse shows are an important part of the fabric of the community and this ordinance would be detrimental to a large segment of your community.
