**Comments for Public Posting:** Rodeo is very misunderstood. I was not raised in the western community and I can say first hand it's misunderstood because honestly I was one of those who did not know the care, work, energy and love that goes into taking care of these animals. From an outside perspective I can see how you might think these animals are being harmed but what first hand experience do you actually have there? Be honest. It scares you because you do not understand it. It scares you because you do not have the initiative to learn or even ask questions. You make scenarios up in your mind because you are trying to make sense of something you know nothing about. You only judge from afar. I have watched small children turn into young adults riding in rodeo and their love and respect for these animals never diminishes. Cowboys and cowgirls take better care of their stock than they do themselves. So take it from me, a woman who knew nothing about rodeo and the western community. I promise you, if you ask, anyone with a cowboy hat would be more than willing to show you the entire process and show you how these animals are cared for. When you love something like you care for it, you fight it. That's what the rodeo community is doing fighting for the animals they love and for the sport they love. The people I love most love rodeo and I will be right next to them fighting for this amazing sport.

**Comments for Public Posting:** To whom it may concern, please do not cancel rodeo. Contrary to the what the person that started the petition to ban it says animals used in Western Sports are treated with the best of care and have Veterinarians available at every event. These animals are fed well and loved by everyone, thank you in advance.

**Comments for Public Posting:** This note is concerning the mis information this council has used to limit and/or ban rodeo and related livestock events in LA county. The information I have read is not accurate, animals that are used for rodeo, horse shows, and other livestock events, are not abused, not mis used, they are very well cared for, and most of them live long productive, healthy lives. Livestock used in rodeo and other events are VERY expensive, it would be totally stupid not to treat them well, and take good care of them. Please get the facts from people who own and use horses and cattle, and not from folks who have only an opinion but no experience or knowledge of such.

**Comments for Public Posting:** Stop respecting our right to freedom. Many beautiful men and women take great care of their livestock, including horses. Restricting the right to run a rodeo, this is a right of passage and grows the development of the young men and women that have a pet horse that they develop a connection with and spend countless hours training. The Rodeo offers many fundamentals that are very important to the families of our future agricultural industries that provide so much to numerous families. Please stand up and show people the beauty and all the good that the rodeo holds on such a high standard. [WesternJustice.info](http://WesternJustice.info)

**Comments for Public Posting:** cattle men and woman are what built this great country. Rodeo and like events are needed for the current and future generations. Many men and woman have used Rodeo as a way to prove and show their skill for future employer's. A rancher will use rodeos to hire their future farm hands and horse trainers. Think of it as a pre job interview. They can see the persons passions and skill set. Without ranchers having good farm hands the ranch will go down hill and when the ranches and farms go down so does the food they provide. The rodeos must stay so that the food can stay on your plates.

**Comments for Public Posting:** The sport of rodeo should not be banned in the City of Los Angeles. I implore you to get facts from those that raise the animal athletes as well those that participate in rodeo to see these animals are not abused. In fact they are treated better than some family pets. Not only are you removing a long time source of enjoyment for all cultures and ages, you will also remove tourism dollars from your city in TOT, restaurant income as well as other benefits for your city.

**Comments for Public Posting:** To here that the cousin would even have this an option shows the misinformation about rodeo. The history in that part of the country is trying to be thrown away my father and grandpa were all part of rodeo in your city and state. .any council member that takes pride in history and heritage willing to pass this should not be allowed to be a council member this is very disappointing. This will be told to every person I come in contact with. Hopefully ur pages get filled with comment. This is such a disappointment to hear its even being discussed.

**Comments for Public Posting:** Greetings from Georgia. As a fiscal conservative and hi-power rifle builder and 2nd Amendment rights advocate, let me say that this kind of "bull riding" garbage is no "SPORT" at all. It is abject animal cruelty performed by those low lifers who put \$\$\$ over compassion. Sadly, few folks on the street have any idea about what REALLY goes on in these so-called "competitions". Thank you for ELIMINATING it!
