**Comments for Public Posting:** I am opposed to proposal to ban Rodeos and other animal / livestock events in the City of Los Angeles. If all of the City Council would take the time to get a good tour of how all the animals are well taken care of you would not be considering this proposal. I highly recommend a NO VOTE on the Proposal to Ban Rodeo and other animal events.

**Comments for Public Posting:** The Rodeo is a part of American history and as of late, animals in American are over all treated better than humans (look at your homeless situation). If you do not have documented, pictures, and verified proof of ill intentions concerning the animals stop the actions against the BP Rodeo.

**Comments for Public Posting:** Please rethink your support for the extreme misinformed and misguided proposed ordinance by the city of LA banning rodeo, bull riding and equestrian activities. Clearly, urbanization fuels opinions, creates rumors and perspectives based more on popularity than on reality. Get educated! Western lifestyle, including ranching, rodeo, bull riding and other equestrian activities is different than city living. Banning these activities is extreme behavior based on opinions, not facts. Instead, if you don't agree with them, don't attend. Better yet get out and learn how much we depend on our animals and see the quality care we provide. Ask questions. We'll be happy to provide answers and facts.

**Comments for Public Posting:** Please don't ban the black rodeo. These animals are not being harmed and not in danger in any way. With all the turmoil happening in our world, attending the black rodeo will take your mind away from the trouble of this world, to relax and have fun with your family in a family safe environment.

**Comments for Public Posting:** In regards to banning rodeo and other equine and animal events, please DO NOT ban them. Rodeo animals are well taken care of, they are valuable to the owners AND the participants. Our western heritage is important for history and our livelihood. It is NOT a hobby! It also teaches our children responsibility. Caring for animals is an import job and responsibility to teach our children. We love our animals and they are part of our family.

**Comments for Public Posting:** Rodeos are already quite sufficiently regulated. Veterinarians are on site when the stock arrives, during the event, and before the stock leaves. These are expensive animals and their owners want them protected and are quite vigilant about the safety, health and conditions for their stock. Rodeos have been around for a long time and are part of our western heritage. Rodeos should continue as they are.

**Comments for Public Posting:** The Bill Pickett Rodeo is not abusive to animals! It is an educational opportunity for everyone especially children that do not have an opportunity to see animals close up. Please give them a chance.
