Comments for Public Posting: We all know as we can easily witness time after time that there is always animal abuse in rodeos. Animals have suffered for centuries at the hands of humans and the time has come that it stops. They shouldn't suffer for human entertainment. That is all it is. Enough is just enough. We must do better and BE better.

Comments for Public Posting: Please vote to support the Municipal rodeo ban in Los Angeles. These poor animals deserve a better life than being forced to perform in a rodeo.

Comments for Public Posting: I agree the City of Los Angeles should be a leader and prohibit electric prods or shocking devices, flank or bucking straps, wire tiedowns, and sharpened or fixed spurs or rowels at all rodeo or rodeo related events in the City of Los Angeles. The City of Pittsburgh's 1992 ordinance banning the aforementioned implements should serve as a model for LA. The use of the above mentioned devices used on animals is abuse and causes pain simply for entertainment purposes. Animals have no choice in the participation of any rodeo or rodeo related events and should not have to suffer the consequences of unnecessary pain and abuse by humans for monetary gain or any other selfish act.

Comments for Public Posting: It sure would have been nice if we had had some advance notice on this item. I feel that it has some good points but a little vague on others. I would like to have this come back to the entire equestrian community to review and comment on before voting on it. As the Equestrian representative of the Sylmar Neighborhood Council I would have liked to have been contacted about this and been able to bring it to my committee before passage.
