Comments for Public Posting: Rodeo and any equestrian event the animals are cared for better than any animal shelter run by the city or county that I have ever been to.

Comments for Public Posting: I am commenting in support of rodeo, team roping jackpots, horse and ranch related events, and barrel racing jackpots. As one who has enjoyed and participated in these events, we need to keep our western heritage alive! The rodeo organizers go to great measures to keep every animal and competitor safe and injury free. These competitors are role models and looked up to. And it's a cherished industry to people in all walks of life, across the country. Do not vote to ban any of these events. Instead open your minds and your eyes. Go and watch a rodeo near you! Go walk through the contestant grounds. Watch how everyone cares for their animals. Watch the kindness, and how everyone helps each other. Watch how they all cheer each other on. Watch how they mentor the kids. Visit with these people and watch how their equipment is checked for safety. Support rodeo and our western heritage. Thank you.

Comments for Public Posting: As an owner of Horse's and cattle. I have had the benefit of also competing in numerous rodeos and other events over the past 45 years. Our animals are well cared for every day come rain or shine. I believe educating an activist, though it may be difficult would be beneficial. Please stop this Ban. Sincerely an avid animal lover and owner, Shannon Matheson

Comments for Public Posting: Growing up in a time when people had to grow their own food from vegetables to meat from, chickens, eggs, rabbits, pigs, cows and goats, we had to have tools in place to help provide not only for our families but also community's. Those tools included our animal athletes that we spend countless days and hours to ensure they are taken care of. Our horses are taken care of with, chiropractic, herbal treatments for ailments that come from just a change in weather and can colic and cause possibly death whereas if they were left to there own would die without our help. We get them the best fitting equipment so they feel good when performing. We have them in the most comfortable places so they aren't stressed. Animals love having something to do as it keeps them in shape and their minds working. I have had horses that actually would run the pasture trying to leave with me when I was taking another horse to a competition. The cows we breed are in the best shape and are big pets they we have names for each of. We have had working cattle dogs that help with the ranch work and again they look to us for a job to do which makes them happier. All this to say that the Western way of life has been around for hundreds of years and the treatment of all animals has gotten better and better so that not only is the human athlete taken care of but so is all of the animals. Without them we would not have a way of life. And that way if life is what has made it possible for everyone to eat and clothe your families as well as ours. Please spend some time with someone in this way of life for a day so you can truly understand what we do instead of listening to hearsay which is usually wrong.

Comments for Public Posting: Please don't ban rodeo!! If animal rights activists would educate themselves this wouldn't be an issue! Rodeo is a positive good influence on the younger generation.
