Comments for Public Posting: I support any and all horse events including but limited to rodeo, team roping, barrel racing, and horse racing. Do not take away our western heritage and lifestyle that helped in founding the state of California. This would be an insult to our ancestors. Thank you.

Comments for Public Posting: Thank you for taking time to read my post. I am from Nebraska and have been involved in the sport of rodeo my whole life. Please take into consideration that this ban on rodeo would be detrimental and heartbreaking to so many people just like me. Rodeo is more than just an event or a sport to us, it is a way of life! It is the first thing we think about in the morning when we go out and take care of our livestock and the last thing we think about when we check on and feed them in the evening. Please don't let this bill pass that would change so much for people who enjoy the western way of life. Thank you for taking time to read this!

Comments for Public Posting: Please do not stop rodeo. Rodeo allows my kids to have goals, and in order to reach these goals they have to be outside caring for their livestock, exercising their horses, exercising themselves, keeping tack clean and in good working order. If one of these things is not performing in top condition, they will fail. Our animals bring us reward, emotional, physically and financially. We would be cutting our own throats if we did not take good care of them. Animal rights activists want animals to be in their natural habitat, which means no dewormings, no hoof care, no veterinary care. How are they to survive when the human race is encroaching on their habitat? I consider THAT a form of animal cruelty! I urge everyone to visit these rodeo animals and see what excellent care they are in and what they provide for families.

Comments for Public Posting: I have been involved in the sport of rodeo for over 30 years. In that time I have never seen an animal injured. Now I enjoy various rodeo events with my kids. The western way of life teaches kids team work and respect, much of which most kids don't know today. This is an industry that teaches young boys how to be respectable men. It also teaches the young girls how to be ladies. There is a heritage here that goes back decades. You show me a gangster that knows how to treat and respect others like someone brought up in the western way of life. To top it off the animals used in rodeo eat better, have better health care and all around are taken better care of than most kids in the United States. I think all members of the council need to attend a pro rodeo, meet and talk with the rodeo team and get an understanding of how well these animals are cared for and taken care of. You cannot ban rodeo in Los Angeles or anyplace in this country.
