Comments for Public Posting: With all due respect. I oppose this because it greatly affects my family, community, local businesses, and our culture that teaches us the importance of supporting the values of Family, Unity, Respect, Hard work, Dedication and Commitment to help us strive to make a positive difference in our communities to succeed. You would be disrupting an especially important eco system with strong and important values that so many young children are losing. Thank you for your time and consideration.

Comments for Public Posting: Rodeo and the Western way of life has been preserving many things that families still enjoy. It fosters and outside activity that is fun for kids to watch and get involved. There is no gender or size/ athleticism boundaries it's a great equalizing formal. The record for animal injury is less than 1% I beleive we need to stop dictating to others what we don't like by legislating the stoppage of something for others. We are creating a huge division within our population. No compromising and understanding with acceptance.

Comments for Public Posting: To whom it may concern. I am writing you this letter opposing said bans stated in Council File #20-1575. California has long been rich in western traditions dating clear back to it application for Statehood. This ban will lead to negative economical issues and affect many emotionally within the community. Passing stated bans will send fellow Californians the wrong message - within the City of Los Angeles and throughout the State.
Sincerely, A Californian Charro

You would be disrupting an especially important eco system with strong and important values that so many young children are losing. My husband has been a pro charro/cowboy all his life. I too grew up in this sport that I learned to love and respect. With all the discipline It requires, growing up It's helped my siblings and I to stay away from trouble. Now we are all hard working families and professionals. Thank you for your time and consideration.

Comments for Public Posting: Rodeos are a family oriented sport full of tradition and values. Trying to ban a part of a sport Is like removing touchdowns from football games. Every part of the sport exists for it flow. It's saddens me to see people who have no idea what the sport Intel's try to ban and make rules that harm the sport. This will not only hurt the ones who practice the sport, it will harm tamiles who's business revolve around the sport. It will harm our children learning what generation before him learned. We would be erasing a part of history so With all due respect I oppose this !!!

Comments for Public Posting: I've been in the horse industry since I was 9 years old (today 43). I could say that from being from a town that has a lot of drugs and violence the horses kept in a straight line. Horses was my way of keeping my grades up and staying in school. Other wise my parents would not allow me to go to the ranch and ride. So it was like my reward. My wife and family are know very involved in the horse industry and I'm very great full for that. My kids have followed my footsteps and love horses just like I do. I used it also as a reward to them. Keeping up with grades and stay in school to establish a great Career. In this world that we live in it's very easy to loose your children to the bad things that we are surrounded by. Violence, drugs, and gangs. I think that the horse industry and activity's is a great thing that we can offer our kids so that we don't loose them to violence, drugs and crime. We could easily loose our kids negative adrenaline. Why not offer them positive adrenaline. They will find it in what ever way it comes easy to them. Please help us keep the world a better place by not taking away what helps keep the world a better place. We love horses. Thank you. Familia Anaya, Villarreal.
