Comments for Public Posting: Rodeo is more than a sport, it is a symbol of our heritage. Rodeo is one of the oldest sports and evolved through each generation. I personally have witnessed many changes, many of these changes have been made to improve the safety and well-being of the livestock. These changes were implemented by the rodeos and contestants before the pressure from the animal activists and extremists. Rodeo is very transparent about its policies and has been painted negatively through outright lies and false information from these extremists. Please do your own research and get the facts before enacting any legislation that would be so harmful to so many people and communities across this great country. Thank you

Comments for Public Posting: Rodeos are cruel exhibitions of exploited animals. The use of painful tools, such as electric prods, shocking devices and bucking straps, to control the animals being forced to participate is truly inhumane. I fully support the L.A. Rodeo Device Ban (thanks to Council Member Bob Blumenfield). Please be kind to these animals and stop this cruelty.
