Comments for Public Posting: Hello, Please do not vote to end rodeo in LA. Rodeo is an amazing sport which has a rich history in the United States. For those concerned about animal welfare I urge you to learn more about how the animals are treated before you make a decision. These animals are elite athletes and treated like elite athletes.

Comments for Public Posting: Please do not support the proposed rodeo ban in LA. Take a minute and visit with a rodeo contestant. They truly love their animals. Not only are these animals a part of their family, but they are a huge financial investment. Supporters of this ban are giving the city supervisors false information. Our family has been traveling to watch Rodeos in the city for 40 years . If this ban is passed it will be detrimental to a ton of other equine industries.
Thank you, Jon Shadle

Comments for Public Posting: SAVE RODEO! The people pushing for a ban don't know what they are talking about. A ban on rodeo will have all sorts of unintended consequences that benefits no one except the extremists. Listen to the professionals, not the activists.

Comments for Public Posting: Stop causing unneeded expenditures for your city and state attacking hard working people who care for their animals more than you care for yours. This is just a money making scheme for you.

Comments for Public Posting: Please stop the ban on Rodeo. It's an important part of our history. I raised 2 kids participating in the sport of rodeo. They learned to care for their animals before themselves. This taught them compassion and a great work ethic.

Comments for Public Posting: Please stop this nonsense. Ranching, Rodeo, working with animals has been a way of life longer than any of us can remember. It is a part of us and our history. Please don't try to eliminate this for us and future generations. These animals are all loved and well cared for!

Comments for Public Posting: Begging you, please don't do this to our rodeoing ranching families, communities and others it may effect. Please think of all of us that live in rural areas and how it would hurt us, our kids and Grandkids. We are all struggling anyways. This way of life is our livelihood. Thank you.

Comments for Public Posting: When a City becomes self-blinding to Agriculture and the enthusiastic heritage of those who came before, to then rule by temporal whims, that City can only sink into an urban depression. Denver has a Stock Show and Rodeo going on currently as does the City of Fort Worth. The financial benefits to these large cities are huge. We urge the City of Los Angeles to take this into consideration as well.

Comments for Public Posting: livestock events and Rodeo are great foundation for the youth. Please don't take away sports that are part of the history, lively hood and lifestyle of so many. Livestock is monitored closely and performance horses and animals are also. The economic impact of many of the events that are on the "chopping block" help raise money for many non profits and help fund countless good community services.

Comments for Public Posting: I am supporting Western Justice to make a positive difference in our western way of life. My family is very active in the competitiveness of rodeo. My husband competes in team ropings, my wife in barrel racing, and my daughter in barrel racing and in the stock contracting part of rodeos. Let me clarify to people that think animals are abused in this industry. The horses that we compete on and the stock that are used, are very much loved and taken the best care of. I wish more people could see the behind the scenes, to understand how well these animals are treated.
