Comments for Public Posting: Do NOT ban rodeo in LA or any where else in America. It is a part of our heritage that we must protect and preserve. Rodeo stock receive great care by their owners and is an important part of our western heritage. Ban illegal immigrants and go after drug dealers and criminals that only harm our children and society but do not ban rodeo.

Comments for Public Posting: Hello, Banning events like the PBR, PRCA, and the Bill Pickett invitational can be a huge blow to kids who dream of one day of being a Rodeo Contestant Hi my name is Clayton. I remember going to Rodeo when I was a little kid and dreamed of being a Rodeo Star. You see I didn't get to spend every day out in the country working with cows and horses. Even though my mother and father were both brought up in the agricultural world, they decided to raise us kids in the city. I looked forward every year to the Rodeo and I knew one day that I would be in it. My neighborhood was full of crime and drugs and it was tough on me as a teenager. I was taking a turn for the bad until my 18th birthday. I was old enough to make my own decision and I started Rodeoing. My rodeo career lasted way up into my 30's. It was my ticket out of the streets and into the country where I wanted to be. There are kids out there right now like me who dream the way I did. They are in your city. Please considered what you will be taking away from them if this ordnance goes through Thank you for your time Clayton Darby A Rodeo Advocate

Comments for Public Posting: Counsel members, As a 72 year old rancher's wife and an individual who personally participated in rodeos when younger, I can assure you that we value our animals and do everything in our power to see they are taken the best of care. Our children and grandchildren also participate in many equestrian events and have invested not only time and money into the animals but have spent countless hours providing love and care in their behalf. We have laid to rest some of these dear friends bc friends they are. They have provided unlimited and invaluable life lessons that will carry our kids through out their lives. Some will tell of horror stories about unthinkable care but be assured that we who embrace this lifestyle abhor that treatment as well! Before you vote for this, please understand that you are not truly listening with an open heart and mind but being lead by those who have never in their life have lived and breathed and loved... yes loved our animals and our life style like we do. We have invested generations. Thank you for your time.
