Council File No: 20-1575
Comments for Public Posting: By passing this ordinance, we will see a mass exodus of residents. These are also residents that have large properties which generate large sums of tax income for the city. Please adjust your focus to the true criminals that are inflicting harm on animals. There are millions of poorly treated animals, underfed, overworked, and neglected animals that are being overlooked. You are focusing on the wrong problem here. You are attacking businesses and honest families in the city. Right motive, wrong method.
