Comments for Public Posting: Cowboying is a way of life. The animals are treated very well. We feed our animals before ourselves. They have the best medical care. Just because you don't want to be on the back of a bull does not mean you should take my right away. We will always need the Cowboy. Please educate yourselves on the details before you cast judgment.

Comments for Public Posting: With all do respect, Please do not ban rodeo or any other equestrian events in Los Angeles. Please read the facts about rodeo, and better yet, visit a rodeo and see for yourselves the truth about how Western Events are done, and how the animals are actually treated. The lies that have been told to the council have been proven false when the facts and evidence have been presented. Please raise the legislative bar and be knowledgable so you can make a sound decision before casting your vote. Your community, your county, and your state have a lot to lose if this misguided legislation is passed. Please be open to actually see the truth, I don't know of anyone in this industry that wouldn't take the time to explain and show you the facts.
