Comments for Public Posting: Rodeo performers treat their animals better than most people treat their pets. They have veterinarians on site at each event just like football players have doctors at their events. Please consider this comment in support of continuing the art of rodeo. Thank you.

Comments for Public Posting: Be advised that the anti-Rodeo, anti-American "animal rights" Nazis are committing violations of the Racketeer Influence and Corrupt Organization (RICO) Act of 1970 by conducting their pogrom against Rodeos which are a longstanding tradition in America. Rodeo organisers always work to ensure the welfare of all animal participants in their events and always have. Leave the Rodeo events alone and let them continue without any further interference.

Comments for Public Posting: Rodeo is a family event. It teaches our young to respect and care for livestock. It is not cruel it is a beautiful understanding. Do not let the animal activists twist the truth and manipulate our paths. Preserve rodeo and rodeo events in LA City
