Comments for Public Posting: Dear, Councilmember Hernandez, I am surprised and saddened to see the City of Los Angeles even consider what is popularly known as the "Rodeo Ban". Not only am I against banning rodeos but the bill being considered extends beyond the working horses, who enjoy the challenges of competition, but this legislation is out to disrupt more sedate, dog and cat shows. I am not going to bore you with lots of statistics, but as a multi-generational Los Angeles resident, that immigrated in the 1870's. Please, please, seek a more rewarding and needed direction for the City Council's talents, (such as surprise vehicle inspections to ticket the many vehicles without front license plates, or illegally painted plates - the problem with illegally displaced license plates cuts into revenue based on license plate recognition software, and very likely increases crime, due to difficulty to identify the criminal. Appreciatively, Concerned Citizen
