**Comments for Public Posting:** Your stance on banding rodeo is just plain ignorant thinking. This is a lifestyle for so many of us here in Los Angeles. We love our animals, and we love our sport "RODEO". I am not to sure why you want to band rodeo; I am assuming your listing to those who think it hurts the animals. Those who are concerned should get with the rodeo producer or one of us riders to see first-hand what really is behind the scenes and how much the animals are loved. You really need to get your intel correct before jumping into such a band that would affect your LA residences. You should be supporting all of us for the Los Angeles area who have animals and competed. I personally invite you to do an interview with me or come on out for a day!
