Comments for Public Posting: SAVE RODEO! Please do not let the well-funded and vocal minority that is the animal extremist crowd dominate your decision. Most of those people have never spent any time around livestock, much less rodeo producers. They do not have an inkling about the level of care these animals receive. Their underlying desire is to remove ALL animals from human use and enjoyment and their attempt to ban rodeo in L.A. would take us one step closer to that. If you have pets, if you enjoy a BBQed hamburger on the 4th of July, if you like watching the Kentucky Derby, PLEASE understand that allowing extremists to ban rodeo would further their mission to take all of that away from you.

Comments for Public Posting: Rodeo is an American institution, banning it would be an incredible mistake. Not only is rodeo a part of the history and culture of this nation it is a sport with people of high moral character and standards. The fact of the matter are that people with no experience in rodeo or with horse/cattle support these types of bans. People that take the time to learn and understand skills taught and care these animals receive during their lives love the sport. Take the word of actual experts in the arena not people spinning wild lies propagated by animal rights “activists”
