Comments for Public Posting: Dear Council, I am writing in show of support of rodeo. As a newer spectator to the industry, I have been impressed by the camaraderie and family dynamics I have witnessed over the last few years- this includes the humans and livestock involved. Everyone has respect and utmost care for eachother and the animals. Something you don't see often. Are there bad apples in the world? Sure..it exists everywhere. But a huge majority of the people involved in rodeo have a love of the animals, the sport and their teammates/fellow competitors. It also teaches children (and adults) responsibility and accountability. Something the world is lacking now. I implore you to hear and seriously consider the comments of those in favor of keeping rodeo alive. Thank you for your time, Annmarie Gentile
