Comments for Public Posting: Using devices that hurt animals and makes them suffer needlessly is not entertainment and I believe when people are aware of this they will cease to come to watch. It teaches children that animals are there to amuse us no matter what it does to them. A terrible lesson.

Comments for Public Posting: This planet belongs to the animals as much as it does to us humans. They deserve kindness, care and compassion as much as we do.

Comments for Public Posting: Anyone with a heart would oppose using painful prods and straps to terrorize animals into performing. Rodeo is not a sport, it's a public display of animal abuse, consisting of terrified bulls and horses trying to get away from something that is causing them fear, pain, and discomfort. This abuse has no place in our society, and our laws must be changed to reflect the will of the public. Please ensure that the City Council moves quickly to pass the ordinance banning these implements.

Comments for Public Posting: I object to the treatment of animals that goes on in a rodeo and call on you to prohibit rodeos in your area. It is quite clear that the rodeo presents the ways that humans can dominate animals in certain ways. That is not what we ought to be doing at this point in our existence when animals are dying off at exaggerated rates around the globe. We need to be promoting a more respectful relationship with animals as opposed to a domineering one which gives people license to utilize animals for whatever purpose they want. In addition to the negative overall message that is sent, there is also the very real issue of cruelty to the specific animals that are utilized in the rodeo. All the actions that depict human domination are completed through painful and traumatic experiences for the animals themselves. They should not be subjected to such suffering simply so that humans can gain a sense of pleasure. There is a serious and obvious ethical problem with that scenario and it should be clear that rodeos ought to be stopped.
