Comments for Public Posting: The western lifestyle and rodeo has been apart of roots that made this country for over a hundred years. I was raised in the western lifestyle and it had taught me numerous life lessons and skills that I wouldn't have been able to acquire anywhere else. Responsibilities, Morals, Kindness, Care, and the list could go on. The contestants of rodeo care more for the well being of animals than people believe. I encourage the people of the council to not only to consider the love we have for rodeo but to also reach out and talk to your rodeo people and ask them why they love rodeo. God bless you all and have a great day!
