**Comments for Public Posting:** The Ordinance, brought forward by Council Member Bob Blumenfield, would ban the use of the tools used to control animals in rodeos, such as electric prods, shocking devices, and bucking straps, at rodeo events in L.A. Although this is not an outright ban, it is impossible to hold rodeos without the devices that torment animals into performing. In February 2021, the City Council voted unanimously in favor of the proposed Ordinance and it is now being drafted by the City Attorney's office. However, in order to be passed into law, the official Ordinance posted by the City Attorney will need to be voted on again by L.A. City Council Members.
