Comments for Public Posting: I believe that you should not take away the rights of many kids and adults to learn about agriculture and livestock. That is where our food comes from, and we need to know about it.

Comments for Public Posting: The western community is the backbone of this country. You wouldn't have half the opportunities that you do today without all the work of the western community. Let people have their freedom to enjoy the things they do. We don't stop all you city folks from what y'all do so don't try to take ours away. Without agriculture our country would fall. You can't have a booming economy without farmers and the agricultural community. I know we're often overlooked in our small towns and rural way of life, but we're still here and we're working from before the sun's up till past its setting.

Comments for Public Posting: The sport of Rodeo has been a longtime tradition. It promotes healthy competition, relationships between animals and people as well as builds confidence in those that choose to participate. Don't take away something that is truly American. Please do not cancel Rodeo or Horse related events. As Will Rogers said "there's something about the outside of a horse that's good for the inside of a man."

Comments for Public Posting: Rodeos are a educational and entertainment for the public and if people would educate themselves they would understand the sport and what's happening. Educate yourselves properly don't ban the rodeo. That's ignorant.

Comments for Public Posting: Horses have been a part of the American culture since it's inception! Please please do the right thing and continue to allow horses to be enjoyed by not only the state of California but the entire world.

Comments for Public Posting: It is time to STOP taking the freedom of choice away from people. Rodeos have been around forever and part of peoples/ families way of life. Why do we feel the need to stop or change this? If people don't like what it stands for or what they do, they have a CHOICE to not participate or fund what they believe in. Stop taking away a lively hood and joy that a majority of others do to appease a smaller population or people who think this way.

Comments for Public Posting: This looks like the city council is trying to a lot of damage to the livestock community, very much against this. We must stop this rodeo ban.

Comments for Public Posting: I support rodeo and all associated sports. The animals are well cared for and pampered for all practical purposes. The sport is entertaining and while supported by a smaller audience than say football, is just as vital to many communities. LA should not ban the sport any more than they would ban: Cutting Horse Competition, Ride and Tie competitions, Hunter/Jumper competitions, Dressage or horse racing. Please rethink this proposal.

Comments for Public Posting: I grew up in Southern California. My childhood lived around horses and livestock. It bought so many life lessons that have been helpful in my adulthood. Living a rural lifestyle has made me a strong emotional independent individual. I was bullied as a child for being different but as a kid I knew animal events help overcome my fears and were a listening without judgement. Taking these events from our children will only increase our mental health issues. If we ban livestock events then we should consider to ban professional sports like NBA, NFL that promote hatred by fighting against each other including with fans. I'm 2004 Brawl at the Palace. All over the web there compilations on the best fights in sports. Which is supporting hateful tendencies in our youth and ourselves. Individuals in the western lifestyle promote taking care of each other and their livestock. By banning livestock events we are erase our history. If we can erase history then we won't be able to learn from the mistakes from the past. We must be mindful of who we have became the one way to do that is live a lifestyle of learning and growing with livestock. Buffalo Bill's Wild West show was not to make money but it was to remember and embrace our hardships as a people. Rodeos and livestock shows keep that same tradition that started with the Wild West show. We must remember from our mistakes show they dont repeat themselves.
