Comments for Public Posting: Please accept this comment as support for the motion that would ban the use of "inhumane implements" (including electric prods, flank straps, and spurs) at rodeo events held in the city. Animals are not for our use or entertainment at this cost. These events are arcane and barbaric in this day and age, deserving a place in the history books not a modern world. Thank you

Comments for Public Posting: The use of animals for entertainment especially where their treatment is unpleasant for the animal is something which no civilised nation should allow. In the 21st century humans should strive to be better and anyone who enjoys the suffering of another being animal or human is a danger to society.
