Comments for Public Posting: Please do your research before passing an ordinance like this. The joy that my family has received in watching these talented humans and animals is immeasurable. It is very clear that the animals are well cared for. There are no tools of torture.

Comments for Public Posting: If you read all those in favor of the ban, then I expect every single one of them, Including Councilman Blumenfield, to BAN any information that comes from Fauci and the NIH. Fair is Fair. We have a "medical professional" who tortured beagle puppies with experiments. When the puppies cried out in pain, their vocal boxes were then removed. But, if you are okay with that, maybe we can BAN Fauci due to his using orphaned children to test AIDS drugs? You can't be a little bit pregnant. You either support the human treatment of ALL animals (four legged and two legged) or you don't.
