Comments for Public Posting: I have worked with two stock contractors and helped organize more than one rodeo. These animals are more than a commodity to these stock contractor families; They are celebrated as rockstars and their well-being is of the utmost importance. I have personally cared for several bucking horses. Looked them over between performances, administered de-wormer, brushed out tails and trimmed manes. The horses which excel in rodeo have a wild spirit, are all-pro, and enjoy the eight second challenge between themselves and the rider. When we organize rodeos there is always a designated veterinarian onsite. The campaign against rodeo is a deception preying upon an uninformed public. Rodeo is a family friendly, All American sport. It would be a shame to deprive CA citizens of the right to attend these events, as well as all of the secondary economic benefit the industry brings with it.
