Comments for Public Posting: I support the Rodeo Device Ban. There is no excuse for animal abuse in Los Angeles.

Comments for Public Posting: As a Los Angeles native born and raised, I urge you to implement the ordinance to ban the use of cruel devices that force rodeo animals to perform. Not only is it inhumane, this kind of torment has no place in a progressive city like Los Angeles. Please take a stand for innocent animals and vote to pass this ordinance.

Comments for Public Posting: Please vote to keep rodeo and all other related equestrian events safe from interference and being banned in Los Angeles. Los Angeles has a rich equestrian history that spans many generations and is multi-cultural in nature. The safety and good treatment of all animals involved in these events is of paramount importance to the participants. Those who are calling for bans on equestrian events and the particular types of equipment used lack any true understanding of the beneficial nature of the events, and the proper use of the equipment for both the horse and rider. The horse is not dominated, abused, or forced to submit in these activities, rather the horse is a willing partner who enjoys doing a job with their human partner. As a person who has worked with horses for most of my life in many aspects of horsemanship, I can assure you that the bond formed in a horse and human relationship is nothing short of miraculous, and life changing for the horse and human. Both are better for it. The beauty of that relationship transcends words and can only be understood by those directly involved in the process of preparation and performing. It would be a shame and a true injustice if any type of ban was to be implemented in Los Angeles which would rob future generations of horses and humans from experiencing the process and life lessons learned of working together as partners toward a goal. A goal that in the end is a beautiful and artistic expression of oneness between the horse and human and allows for the horse cultural heritage to be passed down to future generations.

Comments for Public Posting: With so many family oriented events being disbanded by government, this will be one more step in separating, both, family events and the State of CA from the rest of our great Nation. The rodeo represents so many faucets of a historical part of California (God, country, horses,cattle, cowboys, family, etc..). Please, please do not take away another part of Our American way. Our community is praying for each of you and for Our Great Nation. Thank you in advanced for your time and consideration in this matter. Sincerely, Brenda Lehi (Native American-Navajo)
