Comments for Public Posting: Please pass the L.A. Rodeo Device Ban. A recent poll of LA voting residents showed 72% support the ban. There is no excuse for animal abuse in Los Angeles.

Comments for Public Posting: Do not pass this ordinance. The people who operate and participate in rodeo, horse shows and animal performances do follow appropriate and ethical animal treatment. Events such as these have rules and have trained personel on site who understand appropriate treatment of animals. The participants are mandated to follow rules that provide appropriate and ethical treatment of the animals. Participants are fined, disqualified and censured if the guidelines are not followed. Passing such an ordinance would be an additional example of blind government making rules and regulations based on the perceived ideas of focus groups who have very little real knowledge of the industrial they are trying to destroy.

Comments for Public Posting: Rodeos aren't necessary everywhere but why outlaw horse shows and riding? just don't let them use spurs or whips. it can be done without them. the synergy between horses and humans can be a really cool and beautiful thing. They even love each other and enjoy each other's attention. Horses and people make good friends, this is excellent FOR THERAPY for abused and / or disabled people. Horses are our big friends who do us a lot of good, and part of that is riding them. They like it and they love our interactions with them, they look forward to being groomed , stroked and hand fed each day. Therapy horses , pleasure riding and shows can all be done without spurs or whips. I know, i rode my horse for years without any of that. We were friends.
