**Comments for Public Posting:** To want to remove rodeo from any part of the USA is to attack our western heritage and a direct attack on a people group. It's an attack on an industry that provides a living for families. It's an attack on a sport that athletes of all ages compete in. An attack on rodeo is an attack on entertainment for all ages. Leave rodeo alone and let it continue as the sport, entertainment, historical picture of our past and present, and as an industry that provides jobs.

**Comments for Public Posting:** It is my understanding that PETA is working to actively eliminate the sport of rodeo. Anyone that has ever participated in the sport knows and understands that the animals that are used to participate in this noble sport are treated and cared for in the best capacity. Veterinary care, top feeds and supplements and exercise are all done to help these animals perform to their utmost ability, in whatever event they are used. There is no abuse to the animals, as they are bred to perform in their chosen discipline. I encourage you to actively engage with those who care for the animals and find out how much these animals are cared for and make an INFORMED decision. Thank you! Jenny Morgan

**Comments for Public Posting:** I support the Rodeo Contestants and Stock Contractors. Their animals are well cared for and they always have the animals best interest in mind. I have been around these events for years and have seen the level of care for these amazing and talented animals. They are treated like athletes because that is what they are.

**Comments for Public Posting:** Rodeo is deeply rooted in American history. The animal athletes are just as important as the human athletes and are well taken care of. It is a safe way to showcase what life was like and still is in a lot of areas where there is ranching and farming. I've encountered people, adults and children, at rodeos have never seen a horse, bull, or cow in person. Taking something this historic away is a grave mistake.

**Comments for Public Posting:** Please do not remove rodeo from the city, the county or the state. Rodeo is an historical part of American history that should be maintained for our generations.

**Comments for Public Posting:** The Rodeo industry has been around for decades and take better care of the animals than any other industry. The straps on the bulls and horses do not hurt them. When you see a roping calf or roping steer get hurt it is just as upsetting for the contestant as it is for the spectator. Things can happen to any animal or person at any time. Rodeo is the cowboy way. That's part of America

**Comments for Public Posting:** I am in full support of rodeos. They are the backbone of our country and our way of life. The animals are kept in the best conditions. It is a shame that people who no nothing about the rodeo way of life have ANY say at all!!! Please do not stop rodeo.

**Comments for Public Posting:** Rodeo livestock is truly well cared for. These animals are cared for better than most family pets.
