Comments for Public Posting: Rodeo is important for the youth of Americans it teaches responsibility, respect, companionship and dignity. The values learned in rodeo and the heros derived from this sport are unmatched by any other American sport. I fully support Rodeo across this great country and personally feel like it saved my life from lifestyle filled with drugs and alcohol. Gave me something constructive to do and showed me what having a heart really means for myself and others.

Comments for Public Posting: Rodeo is a major part of our heritage. The stock is very well taken care of, and has minimal time working. Special interest groups (such as peta) while claiming to have animal rights and humane treatment as thier main goal, do not. Many of these extremist groups are pacs, which serve only to limit the rights of others, with thier misaligned ideals, to the point of mental illness.

Comments for Public Posting: Rodeo is a sport and the animal athletes are treated very well. Taking away their jobs has the same affect as taking anyone's job- it will kill them. All those horses the "animal rights activists" [[[Saved]]] in NY by destroying the Carriage industry were sold, many had to go to slaughter plants in Mexico and Canada due to an oversaturated market. If you actually care about the animals (and not just about patting yourself on the back) Save Rodeo, Save the Animal's jobs.

Comments for Public Posting: As a mixed animal veterinarian for 30 years, I can assure you that rodeo animals are some of the best cared for animals. Cowboys and other livestock men are constantly putting their animals first. I have personally witnessed cowboys scratching to protect their horses well-being. Additionally, rodeo institutions are an excellent way of introducing young people to the livestock industry. You have to admit, it is far better than sitting on a screen!

Comments for Public Posting: We are asking the city council of LA to reconsider banning Rodeos in the city. Rodeo is a huge part of our life, a tradition for so many people and families, a cultural event. Such a family friendly event, people of all ages can come and enjoy all of the activities at a rodeo. If your concern is the animal athletes, talk to those involved, see these animals for yourself, do some research and you will find that these animals are very well taken care of and highly valued. It would be a tremendous shame for part of our heritage to be discarded simply because research wasn't done.

Comments for Public Posting: Rodeo has been an all-american sport for hundreds of years. These events bring in huge crowds who enjoy the western experience. These animals are treated very well despite the extremist reports of the opposite. I have been around it my whole life. The average person should be able to see how cowboys grew up in the American West! Please do not cut out a piece of history from the public!

Comments for Public Posting: Rodeo is an integral part of our peoples culture. It is not a hobby. It is not a past time- it is my heritage. To pen laws against the heritage of my people by penning laws against rodeo is nothing short of ignorance and discrimination. It is a heritage that existed before the state of California and therefore should be respected as the culture and heritage it is- and given it's due rights and protection from abuse. It is the role of government to protect its people from hateful and miseducated legislation. It is the responsibility of Los Angeles to ensure the peaceful cultural practices of everyone and to stop the weaponizing of our legal processes to suit the misinformed agenda of a small hateful group determined to see the extinction of our heritage, culture and way of life. I urge our lawmakers to educate themselves of the five social markers of the western heritage that qualify it as a culture and people group, due all the protections and preservations afforded it in the face of persecution.

Comments for Public Posting: The rodeo events bring community together. Teach sportsmanship. Proper care of livestock. Introduce country lifestyle to city dwelling persons. It would be stupid to not provide proper care of the animals that help provide a living. They are well cared for.
