Comments for Public Posting: I completely oppose this ban. It ignorantly attacks a sport that does not hurt animals but rather honors them. There are over 35 animals inducted into the ProRodeo Hall of Fame. Rodeo also practices incredibly humane animal welfare practices that have inspired me to be a veterinarian within this industry. To ban rodeo within LA would be an absolute tragedy. The legislation would hinder a sport that promotes honesty, integrity, and try. A sport that has helped thousands of people find purpose. It also would hinder other sports as well with the way the legislation is written. It is not necessary at all.
