Comments for Public Posting: I understand that people feel it is their right to attend rodeos due to tradition. When tradition harms others, it should no longer be accepted as a form of entertainment. We must change our way of thinking and act compassionately. Many people bring their children to rodeos. This is giving the wrong message that our entertainment is more important than the wellbeing of another species. I am urging you to implement the ordinance that bans cruel devices in rodeos. Los Angeles has come so far and is known as a progressive city. Let's continue to stand by this and show our compassion to other species. Please act compassionately and vote yes on this ordinance. Thank you for your consideration.
