**Comments for Public Posting:** i am in the animal care field and am a Registered Veterinary Technician and have worked with domestic, zoo, farm , exotic animal for over 50 years . i have done petting zoos, animal events , reindeer , and other camel events .i have been an avid participant to Rodeos and other western events , and worked on movie sets and worked with animals under somewhat stressful events . i never force an animal and have canceled events or not used upset or injured animals. i also believe in safety for animals and people i believe rodeo animals are very well loved and cared for and so many people to learn about animals. Rodeos are fun , exciting and good for animals and people too . Many animals love competing and if you take away that they would be unhappy not to do have that part of their life anymore . They have excellent husbandry , vet care and it would be ashamed to loose this western heritage.
