Comments for Public Posting: Rodeo has been part of the American Culture for many years. Southern California is home to many in the rodeo community. They are your constituents!! If you think these animals are being abused, why don't you ask to shadow a rodeo producer? Go in the back and see how the animals are cared for. Go in the back and see what team work is. Go in the back and see how young people are respectful, responsible and mature. Go in the back and see what family is. I will keep my words short as I am sure you are getting many messages. Your community is losing out on reinforcing positive cultural norms by cancelling rodeo. For the sake of your young people, please keep rodeo alive in LA.
