Comments for Public Posting: Rodeo is part of Western culture, Indian culture and Mexican culture. Do not outlaw this sport. It unites all of us. It is part of our life that produces the most driven, hard working Americans. moreover, the skills are practical and used to produce food that feeds our country.

Comments for Public Posting: To whom it may concern. I am at utterly disappointed to hear that anyone would even ever think about banning the activities of the western heritage by banning rodeo and any event that includes livestock. We have been holding rodeos since the 16th century. Why now!!!! Don't you have better things to be doing with time? Rather than sitting at your desk in some high rise building in the middle of the city to see how you can try control the very people that have for many years put food on your tables and all of your restaurants in your city. Leave our heritage alone. We are the people that feed America.
