Comments for Public Posting: Dear city council, I have worked in agriculture and animal management for a long time. I have participated in and now am a parent of a participant in the sport of rodeo. All animals are held at high regard. We don't want our animals to be hurt or suffer in any way. We do a very good job of making sure all animals are safe and thriving in this sport. My horses in particular have a chiropractor, dentist, and a veterinarian they see more than my self or my kids see our healthcare partners. In short, the people trying to ban rodeo have not and do not participate in the sport. There is no way they can know truly what goes on to train and use these animals. I wouldn't ask or trust a non medical professional for medical advice. As for rodeo, I would never ask or trust the opinion of a non rodeo participant about the treatment of our animals. In summary, rodeo is not a cruelty sport. It is a sport that embodies our culture and way of life. To take that away on the word of non rodeo participants is detrimental to my culture and way of life. We don't all have to agree but we should all respect our differences. Thank you.

Comments for Public Posting: Please do not ban any or all parts of rodeo in part or whole. The livestock and all people involved are well cared for at every moment. This is a long standing lifestyle where beneficial tourism revenue thrives as a result.

Comments for Public Posting: Banning the sport of rodeo is a threat to our nations future. It dims the light on our future generations by not showing them first hand the history of this nation. Rodeo is truly a family sport filled with patriots! There is no abuse to animals!! These animals perform to the best of their genetics and love their job! Vets are on stand by for any injury as any sport can have, Human or animal! Rodeo is showing skills used in every day life with animals! Whether it's to rope a calf to doctor it or to not get bucked off while starting one. Each event has an actual place in daily ranch life and it's been perfected overtime where these animals show off these skills in very quick 2-8 second performances. Banning this hurts true animal lovers and only allows ignorance to win. The same ignorance that needs sports like rodeo to truly learn from! The reason it should not go away but to allow an outlet for people to truly learn what happens when a calf must be restrained for life saving measures out in a pasture and how fast a cowboy can get it done! Taking this outlet away only allows This ignorance to continue unchecked and only destroys the people who truly work hard for animals and really have good intentions for animals!
