**Comments for Public Posting:** Rodeo is not a cruelty to animals. They are treated with respect and with dignity. Unless you know rodeo's then know these animals are very well taken care of. Very well treated and cared for!

**Comments for Public Posting:** It's atrocious that you would try to eliminate The sport of rodeo. All of these animals are well taken care. Loved. Treated with respect. And they enjoy doing their job.the bulls were raised to buck. They know their job and do it well. The steers for roping are worked with and also learn their job. And do it well. The cowboys and cowgirls spend days months years perfecting the process of the sport they compete in . The horses are worked every day and exercised to keep in shape to perform at their peek. It's a Shame that bleeding heart liberals would try to destroy the western sport of rodeo. And it's a multi million dollar industry. You promote football for your high dollar players as they get knocked around on the field yet are trying destroy the very talented rodeo, animals, crews and entrants. She on each of you pushing to eliminate this very proud industry. My family has been involved rodeo for most of 50 plus years and they are proud of their success in this industry. I'd rather see them participate in the rodeo events than on a football field but we can all share our own interests. And it's good for the heart and soul. Your bill needs to be filed in file 13-trash.

**Comments for Public Posting:** Rodeo is an important part of my heritage. It would be terrible to take that away. All of these animals are so very well taken care of. Rodeo tickets help to support youth groups and police and many other civic minded activities.
