**Comments for Public Posting:** This ordinance is an effort to vilify, ban and erase cultures and their traditions. This ordinance is very obviously discriminatory as it only addresses rodeo and equestrian events stemming from low class and working class communities and not those that are very prevalent in higher class and wealthier communities such as dressage and polo. This ordinance will further create divide amongst the population which is unnecessary and flat out wrong. We must stop creating division and ordinances that attempt to further erase the foundations of our state and country.

**Comments for Public Posting:** You Californian city people are clueless???? What good is it gonna do, people will Rodeo anywhere else. It's the same analogy with guns: it isn't the weapon that is the problem, it's the hands holding the weapon. While rodeo CAN in the wrong hands be abusive, you know what else can be dangerous in the wrong hands? Cars, airplanes, plastic knives, a Walmart bag, a pen, a laptop, a broom, a hairbrush, a fan, a match. It's about your free will and how you CHOOSE to be good. The wrong hands with a bit can harm a horse, but the same bit with gentle hands does no harm.
