Comments for Public Posting: Rodeo is a tradition bonding man with animals. It is born from the rangeland work required to maintain the health of livestock for doctoring, inoculations, and calving. Horses are our treasured friends whose companionship is essential to accomplish those tasks. We would never harm our animals, or risk our relationship with them or the land. The livestock used is cared for and valued year round. I personally know how well they are taken care of. It looks like amendments to the draft rodeo ordinance from the Western Sports Industry Coalition would be a positive step going forward. Please support our western heritage, and the many animals it would affect.

Comments for Public Posting: Dear Councilmember, Hernandez, The Anti-Rodeo Ordinance, Council file number 20-1575, threatens Western Sports. Please support amendments brought forth that will help animals stay safe while still allowing Rodeo events to be held in Los Angeles city limits. It is a lie that inhumane implements are used on animal at Rodeo events. Yours Truly, Joseph Zinna

Comments for Public Posting: As I am a fan of rodeo and the western life style, I feel it's my obligation to reach out to you. I would never support a sport that is cruel to animals. In my opinion, rodeo livestock has a better quality of life than many other stock. They are respected, valued and well cared for. I'm quite certain the people who drew this ordinance had good intentions, but clearly they are misinformed or uneducated about spurs, other tools used in rodeo and the livestock themselves. We all want the animals to be safe. Please consider the proposed amendments to the draft rodeo ordinance with language from the Western Sports Industry Coalition.
Respectfully, Ann
